

# DONNAFUGATA®

SICILIA • SICILY

## Contessa Entellina Estate

### Where Donnafugata was born

We are in the heart of **western Sicily** where the vineyards are part of the landscape; the climate is Mediterranean, with sharp temperature differences between day and night. We cultivate indigenous and international grapes aimed at enhancing the peculiarities of the different districts and to **produce wines with a strong personality**.

## Pantelleria Estate

### Where the “alberello” vine is UNESCO World Heritage

We fell in love with the **extreme nature** of Pantelleria, a volcanic island between Sicily and Africa, where we started a project of **heroic viticulture**. In Pantelleria the vines are cultivated with the “alberello pantesco” (low-bush vine of Pantelleria), on small terraces, bordered by dry lava stone walls.

## Etna Estate

### On the highest active volcano in Europe

In Eastern Sicily, we cultivate our vineyards on the **northern slope of Etna**, where the soil shows its infinite power. Here the **elegance of volcanic wines** tells the story of mountain viticulture characterized by a continental climate, terraces and dry lava stone walls.

## Vittoria Estate

### Between the Ibleo plateau and the sea

In southeastern Sicily, we have chosen an area suited for **producing smooth red wines with a floral soul**, unusual wines capable of innovating the way red wine is enjoyed. It is the Vittoria area, the land of a historic and prestigious denomination that includes the first DOCG in Sicily: **Cerasuolo di Vittoria**.
