Contessa Entellina Estate

Where Donnafugata was born

We are in the heart of **western Sicily** where the vineyards are part of the landscape; the climate is Mediterranean, with sharp temperature differences between day and night. We cultivate indigenous and international grapes aimed at enhancing the peculiarities of the different districts and to **produce wines with a strong personality**.

Etna Estate

On the highest active volcano in Europe

In Eastern Sicily, we cultivate our vineyards on the **northern slope of Etna**, where the soil shows its infinite power. Here the **elegance of volcanic wines** tells the story of mountain viticulture characterized by a continental climate, terraces and dry lava stone walls.

Pantelleria Estate

Where the "alberello" vine is UNESCO World Heritage

We fell in love with the **extreme nature** of Pantelleria, a volcanic island between Sicily and Africa, where we started a project of **heroic viticulture**. In Pantelleria the vines are cultivated with the "alberello pantesco" (low-bush vine of Pantelleria), on small terraces, bordered by dry lava stone walls.

Vittoria Estate

Between the Ibleo plateau and the sea

In southeastern Sicily, we have chosen an area suited for **producing smooth red wines with a floral soul**, unusual wines capable of innovating the way red wine is enjoyed. It is the Vittoria area, the land of a historic and prestigious denomination that includes the first DOCG in Sicily: **Cerasuolo di Vittoria**.
